

Annou's Seventh Sin

model: Karry

1. Snake

Lyrics & Music by Damien Veen
© 2007 Shangrilla-Dolls

We spent all the time together all the days where we been through
It's in your veins it's in your eyes it's all I want to be for you
Anything you want anything you tell I can put a spell
And anything you give to me is just another fairytale

I can make you anything you want to be
And I... can make you all that you ever want to be
I can give you anything you want to see
I can make you anything you want to be darling

You know I can give you all you ever wanted all you dream about...
It's in my power it's my sin it's all you want to be...
I can take you where you want to go and give you what you need
I can make you a Queen now I can just make you all you need

I can make you anything you want to be
I can make you all that you all that you ever want to be
I can give you anything you want to see
I can make you anything you want to be darling

I can give you anything you want to see
I can make you anything you want to be...

2. Love For The Week End

Lyrics & Music by Damien Veen
© 2007 Shangrilla-Dolls

I can't wait for tomorrows
It's on your easy floor
A door for all devotions
Baby !

I can't take a love it's tasted
You fake with all the dirt
And you just live on the week-ends
A life that is a joke...

Oh god, you walk alone
And you cannot take the radiance
And you don't see the sun ;
And now you won't ever shine...
I can't stand old in sorrow
A day made of circumstance
A dream that can just shore ;
Baby !

I can't take your love it's tasted
The wrong fruit with your flirt
A love just made for the week-end
For the week-end !

Oh god, you walk alone
And you cannot take the radiance
And you don't see the sun ;
And now you cannot fade but you can't shine at all...

I can't wait for tomorrows
Girl I've been waiting for tomorrows
Girl I'd take your guns
I can't take your love it's tasted
The wrong fruit with your blood
A love just made for the week-ends...
A love just made for the weak hand...

3. Hold Me

Lyrics & music by Damien Veen
© 2007 Shangrilla-Dolls

Hold me tight that I never fall
I can see you never be...

I damn to look again...
At your eyes I can see
The past and all history
Oh all you ever... ever be
It's in this life that we never meet again
And here you see I can surrend...

Hold me so tight that I never fall
Cause it's here I lay and you've never been
Just hope for me and I never fall
Hold me tight where I never been

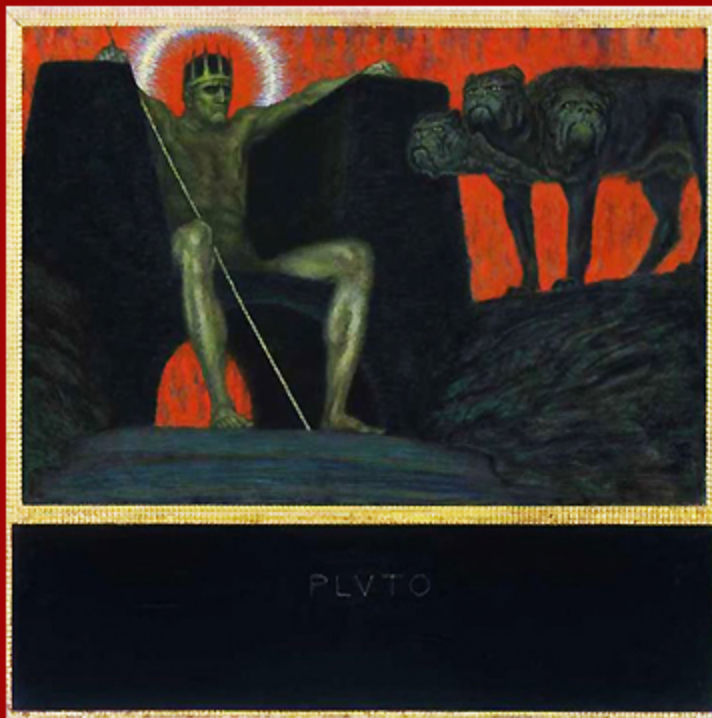

Cause here is dark you see and I get cold
I hope for you to be with me when I fall
And I want to take you high above
I want you to see how things are layed above
I want you to meet me again...

Hold me tight so that I can never fall
It's in this life that we've never been
Hold me so tight that I never fall
It's in your life I want to be...

Hold me
Hold me, hold me dear
Hold me so that I never fall...

Hold me tight so that I never fall again
It's in this life that you'll never be
Hold me so tight my love that I never fall
It's in this place that we've never ever been

Hold me so tight that I never fall...

4. Wasted

Lyrics & Music by Damien Veen
© 2007 Shangrilla-Dolls

Oh it's all wasted, darling we meant to be
Our time is wasted, darling it's true we never meant to be
A dead end now I see come...

Eyes are socken ; I can't get through I never would see you
No more it's time I feel like that...I can't get through
To you is wasted and my time is all I can take
A memory over day waste and...
I'll never come to you
It's a dead-end that you bring to me while you lie always
You lie always and you lie to you as well...

It's a dead-end and wasted ; well my timin' ;
I never pray like that for you
I can't break trough I would have to find a way to get rid of you
The ghost in me never fades away
And all we did together wasted...

Our life and the mean that I brought to you is all wasted
I can't get through I will never try to meet you again
And the time that we took was never ever meant to be
It's wasted ; it's a dead end and a west-end for me now...

Your name I will forget now...
I never prayed away
I never talk about that
I never feel like you feel in my hands and when I touch you
It's all wasted...
I tell you darling...

Oh wasted, it's wasted, and you did it your own way
It's all wasted and you wanted it to be...
It's a dead-end that you serve and this one I take
I bite in the dark now I can see
I see your face explodes
I bite and I can see it briefing darkly

I can scan you down, I can scan you so darkly
Because is seems so wasted
It was never meant to be
It's all wasted ; it's all wasted... it's all way...

Wasted...
My darling I can tell you I will get through
I can bite and I see into the dark
Now it's all wasted...

I love you it's all wasted ; I love you so deeply...
And you serve what you're wasting
A dead-end ; a dead-end in a machine
It's a machine that you will get in the end

Oh it's all wasted
Oh darling it's wasted...

5. True God

Lyrics & Music by Damien Veen

© 2007 Shangrila-Dolls

Well I...
I am the true god
I made us Cain
I am a desert...
And you...
You are a building
You are the cars
You hold a gun

Me I am the lakes
I see the skies
I hold a sun
You...
You are a false god
You are vain
You are just vain...

Oh won't you surrender now
Won't you tell the true
Won't you surrender now
I'll put you down on your knees

Oh surrender
Oh won't you surrender

I...
I be your nightmare
I be the power
I be your aim
You... can pray your false gods
I be there...
I am the desert...

Oh can't you surrender now
Get down on your knees
And get down on your knees
I come I am all you wait...

Oh surrender now it's got the true
It's got the true god

I...
I can see the lakes
You hold a fortune
You hold a scene
You hold the sex
And me...
I can tell the true
I hold everything
I hold your life
Hold your life...

Oh won't you surrender now
Won't you tell the true
Won't you surrender now
I'll put you down on your knees
Oh surrender
Won't you surrender

6. Superbia

Lyrics & Music by Damien Veen

© 2007 Shangrila-Dolls

Oh you are my angel...
Oh my secret angel of light
Oh you are my angel...
Oh my secret angel of light

Into the shadow you lay
It's there you stand carressing
You talk in silence you say
All those things I dream about

Oh you are my angel...
Oh my secret angel of light
Oh you are my angel...
Oh my secret angel of light

Into your room I pray
I take your face for granted
It's in the silence you see
I catch you like a ghost...

Oh Oh...
You are my angel of light...
Oh my secret angel...
Oh you are my angel of light...
Oh my secret angel...

Oh Oh you are my angel
Oh my secret angel of light
Oh I believe in an angel of light
Oh Oh my secret angel of light...

7. Your Home

Lyrics & Music by Damien Veen
© 2007 Shangrilla-Dolls

Your Home

You played into the fields
Like a sunshine in summer
Raise above your days ;
Until the butterfly birds...
And gets a fragrance into your plays

You follow stripped wild is when you want it naked
But...nature stunned you...

Into the grass you layed
And there you ever lay...
I see the road now ;
It's there you ever played
I see your home so far...

I see you...

And there you ever layed
I see the road now
Into the grass you ever layed
A nature stunned you

The nature holds you fine
It's all you ever made
It fits to you personally
And you describe your eternity
Nature stunned you
Into the grass you ever layed
And there you ever played

I see the cross now
I see your home
So far...

It's there you ever played
Darling you ever played there...

8. The Life Play
